

Profile

Product Designer at NUWA Robotics, specializing in cross-platform experiences across AI dialogue, cloud platforms, and robot-side interactions. Skilled at transforming invisible system behaviors into clear user feedback, and translating complex workflows and system logic into intuitive interfaces. Collaborates closely with RD, PM, and sales teams to balance technical constraints with user needs, improving product stability and building user trust.

Experience

UI/UX Product Designer, NUWA Robotics

Apr 2023 - Present

- Cross-Technology Translation | Translated AI, robot I/O, and system logic into understandable user flows, interaction models, and product experiences.
- System Specification | Defined information architecture, task flows, and system states for complex product rules, reducing learning effort and deployment complexity.
- Product Planning | Used Persona and User Story methods to align requirements, define features, and develop feasible cross-platform product solutions.
- Management & Operations | Designed enterprise backend authentication, permission control, and resource management systems for stable and secure bulk operations.
- Product Research | Conducted early-stage robot product research through sketches, Persona, and User Journey Maps to define pain points, needs, core features, and usage scenarios.
- Brand Storytelling | Restructured website IA and RaaS product narratives to better align business goals, value propositions, and customer decision-making flows.
- Design Execution | Built scalable Design Systems and cross-platform design guidelines to improve visual consistency and design efficiency.

Brand Visual Designer, CORBAN

Apr 2018 - Jul 2022

Led e-commerce operations planning and visual design for CORBAN and FERME, enhancing conversion efficiency and brand consistency through customer journey mapping, product navigation strategies, social media content planning, and brand identity development.

Visual Designer, Marco Laurent

Apr 2016 - Apr 2018

Responsible for MARCO LAURENT’s visual planning and e-commerce design, creating consistent brand communication and visual content across marketing, social media, and brand operations.

Marketing Designer, SISDORA

Jun 2015 - Apr 2016

Responsible for marketing design and exhibition planning for Sisdora, creating business development visuals and booth presentations to enhance brand recognition and on-site communication efficiency.
